

The National Association of Broadcasters (NAB), is a group that represents the large radio and television owners. They are using its lobbyists, campaign contributions and political influence to stifle competition and stop XM from offering traffic and weather information and other valuable services to listeners. NAB is trying to limit XM's first amendment rights. I specifically subscribe to XM to get the non-basis information I need. The information is not influence by which large corporation owns them. I support XM radio and urge you to reject NAB's petition 04-160. It is not in the public's best interest. It's in big corporations best interest. VOTE NO, and let the listening public make their own choices.
